Detailed description of project					Type of services provided			
<p>The lproject aims at improvement of the rural sanitation systems (Collection systems and wastewater treatment) in two Egyptian Governorates (Sohag and Assuit) in upper Egypt. Also the increament and improvement of the drinking water sources by construction of new water treatment plants. The enhancement of the saniation systema in those areas is considered as a potential to improve the water quality of the river Nileas well as reduction of the the organic loads in the irrigation canals and drains within the project area. Also the project tagets the increase of the saniation coverage and enhancement of the hygienic level for those areas, empowering the capabilities of the WSCs to design review, implement, operate and maintain such sanitation projects.</p> <p>The specific objective of the project are: Preparation of the feasibility study, full design works and full tender documents for:</p> <ul style="list-style-type: none"> • Wastewater/ Sanitation systems for 8 villages in the project in Sohag governorate (Markaz Tahta and Sohag). • Wastewater/ Sanitation systems for 5 villages in the project in Assuit governorate (Markaz Abu-Tieg, Baheej and Qesia). • New Construction for one WTP by Slow Sand filtration technology (5,000 m3/day) • New Construction of three WTPs by Iron & Manganese Removal (2x 75 L/S and 1x150L/S) in Assuit and Sohag Governorates. 					<ol style="list-style-type: none"> 1. Consultancy services including feasibility study and full design and Tender documents of: <ul style="list-style-type: none"> • Wastewater management system for 8 villages in rural Sohag-Upper Egypt. • Wastewater management system for 5 villages in rural Assuit-Upper Egypt. • New Construction for one WTP by Slow Sand filtration technology (5,000 m3/day) • New Construction of three WTPs by Iron & Manganese Removal (2x 75 L/S and 1x150L/S) in Assuit and Sohag Governorates. 2. Technical assistance in tendeing process and conctrcts award. 3. Construction Supervision and construction Management for whole designed WTPs and Sewerage projects in both Sohag and Assuit Governorates.
